ULTRALIFE CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollar amounts in thousands – except share and per share amounts)
(unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited Consolidated Financial Statements of Ultralife Corporation (the “Company”) and subsidiaries have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”) for interim financial information and with the instructions to Rule 8-03 of Regulation S-X. Accordingly, they do not include all of the information and footnotes for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals and adjustments) considered necessary for a fair presentation of the Consolidated Financial Statements have been included. Results for interim periods should not be considered indicative of results to be expected for a full year. Reference should be made to the Consolidated Financial Statements and related notes thereto contained in our Form 10-K for the year ended December 31, 2015.

The December 31, 2015 consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP.

Our monthly closing schedule is a 4/4/5 weekly-based cycle for each fiscal quarter, as opposed to a calendar month-based cycle for each fiscal quarter. While the actual dates for the quarter-ends will change slightly each year, we believe that there are not any material differences when making quarterly comparisons.

2. ACQUISITION

On January 13, 2016, Ultralife UK Limited (the “Merger Subsidiary”), a U.K. corporation and a wholly-owned subsidiary of Ultralife Corporation (the “Company”), completed the acquisition of all of the outstanding ordinary shares of Accutronics Limited (“Accutronics”), a U.K. corporation based in Newcastle-under-Lyme, U.K., from Intrinsic Equity Limited, Catapult Growth Fund Limited Partnership, MJF Pension Trustees Limited, Robert Andrew Phillips and Michael Allen (collectively, the “Sellers”). There are no material relationships between the Company or Merger Subsidiary and any of the Sellers, other than pertaining to this acquisition. Accutronics is a leading independent designer and manufacturer of smart batteries and charger systems for high-performance, feature-laden portable and handheld electronic devices and is classified in the Battery & Energy Products segment. The acquisition of Accutronics advances our strategy of commercial revenue diversification and expands our geographic reach within European OEM’s. With industry experts predicting mid-to-high single digit growth in the global medical batteries market, this strategic investment positions Ultralife well for further penetration of and growing revenue streams from an attractive commercial market.

The acquisition was completed pursuant to the terms of the Share Purchase Agreement dated January 13, 2016 by and among the Merger Subsidiary and the Sellers. The Merger Subsidiary paid at the time of closing an aggregate purchase price of £7,575 (\$10,976) in cash, and in exchange the Merger Subsidiary received all of the outstanding shares of Accutronics ordinary stock. Monies to fund the purchase price were advanced to the Merger Subsidiary from the Company’s general corporate funds.

The purchase price was subject to adjustment based on the difference between actual and estimated amounts of working capital of Accutronics as well as the amount of net cash of Accutronics. The adjustment resulted in a final payment to the Sellers in the amount of £133 on February 24, 2016, bringing the total aggregate purchase price to £7,708 (\$11,161).

The purchase price allocation was determined in accordance with the accounting treatment of a business combination in Financial Accounting Standards Board (“FASB”) ASC Topic 805, *Business Combinations*. Under the guidance, the fair value of the consideration was determined and the assets acquired and liabilities assumed have been recorded at their fair values at the date of the acquisition. The excess of the consideration paid over the estimated fair values has been recorded as goodwill.

The allocation of purchase price to the assets acquired and liabilities assumed at the date of the acquisition is presented in the table below (in thousands). Management is responsible for determining the fair value of the tangible and intangible assets acquired and liabilities assumed as of the date of acquisition. Management considered a number of factors, including reference to an analysis performed under FASB ASC Topic 805 solely for the purpose of allocating the purchase price to the assets acquired and liabilities assumed. The Company’s estimates are based upon assumptions believed to be reasonable, but which are inherently uncertain and unpredictable. These valuations require the use of management’s assumptions, which would not reflect unanticipated events and circumstances that occur. The resulting purchase price allocation is considered preliminary as it is subject to change due to events in the future and subject to audit by the Company’s independent registered accountants. The final audited purchase price allocation may include (1) changes in allocations to intangible assets such as customer contracts and relationships, trade name and intellectual property as well as goodwill, (2) changes to deferred income taxes and (3) other changes to assets and liabilities.

Cash	\$	1,304
Accounts Receivable		1,344
Inventory		2,167
Prepays and Other Current Assets		584
Property, Plant & Equipment		269
Identifiable Intangible Assets		4,776
Goodwill		4,116
Accounts Payable		(1,009)
Accrued Expenses		(1,136)
Income Taxes Payable		(111)
Non-Current Liabilities		(209)
Deferred Income Taxes		(74)
Deferred Income Taxes on Intangible Assets		(860)
Total Consideration	\$	11,161

The goodwill included in the Company’s purchase price allocation presented above represents the value of Accutronics assembled and trained workforce, the incremental value that Accutronics engineering and technology will bring to the Company and the revenue growth expected to occur over time attributable to increased market penetration from future new products and customers. The goodwill acquired in connection with the acquisition is not deductible for income tax purposes.

During the six-month period ended June 26, 2016, direct acquisition costs of \$251 and increased cost of sales related to purchase accounting adjustments of \$96 for inventory acquired were recorded in the Company’s Consolidated Statement of Income and Comprehensive Income. Accutronics contributed revenue of \$5,033 and an operating loss of \$210 during the six-month period ended June 26, 2016, reflecting the purchase accounting adjustments and non-recurring costs directly related to the acquisition.

The following unaudited pro forma information presents the combined results of operations as if the acquisition of Accutronics had been completed on January 1, 2015, the beginning of the comparable prior year six-month period. The unaudited pro forma results include purchase accounting adjustments to reflect the restatement of inventory to estimated fair value and the resulting increase in cost of sales for the sale of the inventory during this six-month period, direct acquisition costs and the amortization of intangible assets resulting from the purchase price allocation.

The unaudited pro forma results do not reflect the realization of any expected cost savings or other synergies from the acquisition of Accutronics as a result of restructuring activities, other cost savings initiatives or sales synergies following the completion of the business combination. Accordingly, these unaudited pro forma results are presented for informational purposes only and not necessarily indicative of what the actual results of operations of the combined Company would have been if the acquisition had occurred at the beginning of the 2015 period presented, nor are they indicative of future results of operations.

Set forth below is the unaudited pro forma results of the Company and Accutronics for the six-month period ended June 28, 2015 as if the acquisition occurred as of January 1, 2015 along with the reported results for the six-month period ended June 26, 2016 which includes the consolidation of Accutronics (in thousands, except per share amounts).

	Six Months	
	June 28, 2015	June 26, 2016

Operating Income	\$ 1,789	\$ 981
Net Income	\$ 1,395	\$ 745
Earnings Per Share:		
Basic	\$.08	\$.05
Diluted	\$.08	\$.05

3. SHARE REPURCHASE PROGRAM

On April 28, 2014, the Company's Board of Directors approved a share repurchase program (the "Share Repurchase Program") which became effective on May 1, 2014 and under which the Company was authorized to repurchase up to 1.8 million shares of its outstanding common stock over a period not to exceed twelve months. The Share Repurchase Program was extended through June 2, 2016, and the maximum number of shares authorized to be repurchased under the program was increased to 3.4 million shares.

Share repurchases under this program were made in accordance with SEC Rule 10b-18 using a variety of methods, which included open market purchases and block trades in compliance with applicable insider trading and other securities laws and regulations. With the exception of repurchases made during stock trading black-out periods under 10b5-1 Plans, the timing, manner, price and amount of any repurchases were determined at the Company's discretion. The Share Repurchase Program expired on June 2, 2016 and did not obligate the Company to repurchase any specific number of shares.

During the three and six month period ended June 26, 2016, the Company repurchased 149,904 shares under this program for a total cost (excluding fees and commissions) of \$603. During the six month period ended June 28, 2015, the Company repurchased 1,476,855 shares under this program for a total cost (excluding fees and commissions) of \$5,805.

From the inception of the Share Repurchase Program on May 1, 2014 through its expiration on June 2, 2016, the Company repurchased 2,592,095 shares for an aggregate cost (excluding fees and commissions) of \$10,480.

4. INVENTORIES

Inventories are stated at the lower of cost or market with cost determined under the first-in, first-out (FIFO) method. The composition of net inventories was:

	June 26, 2016	December 31, 2015
Raw Materials	\$ 13,922	\$ 11,602
Work In Process	1,880	1,560
Finished Goods	10,751	10,652
Total	<u>\$ 26,553</u>	<u>\$ 23,814</u>

5. PROPERTY, EQUIPMENT AND IMPROVEMENTS

Major classes of property, equipment and improvements consisted of the following:

	June 26, 2016	December 31, 2015
Land	\$ 123	\$ 123
Buildings and Leasehold Improvements	7,738	7,490
Machinery and Equipment	49,940	49,609
Furniture and Fixtures	1,985	1,974
Computer Hardware and Software	4,683	4,585
Construction In Process	893	745
	<u>65,362</u>	<u>64,526</u>
Less-Accumulated Depreciation	(56,504)	(55,488)
Property, Equipment and Improvements, net	<u>\$ 8,858</u>	<u>\$ 9,038</u>

Depreciation expense for property, equipment and improvements was as follows:

	Three-month periods ended		Six-month periods ended	
	June 26, 2016	June 28, 2015	June 26, 2016	June 28, 2015
Depreciation Expense	\$ 576	\$ 582	\$ 1,165	\$ 1,178

6. GOODWILL, INTANGIBLE ASSETS AND LONG TERM ASSETS

a. Goodwill

The following table summarizes the goodwill activity by segment for the six-month periods ended June 26, 2016 and June 28, 2015:

	Battery & Energy Products	Communi- cations Systems	Total
Balance - December 31, 2014	\$ 4,914	\$ 11,493	\$ 16,407
Effect of Foreign Currency Translation	20	-	20
Balance - June 28, 2015	4,934	11,493	16,427
Effect of Foreign Currency Translation	(144)	-	(144)
Balance - December 31, 2015	4,790	11,493	16,283
Acquisition of Accutronics	4,116	-	4,116
Effect of Foreign Currency Translation	(224)	-	(224)
Balance - June 26, 2016	<u>\$ 8,682</u>	<u>\$ 11,493</u>	<u>\$ 20,175</u>

b. Intangible Assets

The composition of intangible assets was:

	at June 26, 2016		
	Cost	Accumulated Amortization	Net
Trademarks	\$ 3,413	\$ 0	\$ 3,413
Patents and Technology	5,561	4,327	1,234
Customer Relationships	7,039	3,878	3,161
Distributor Relationships	377	363	14
Trade Name	399	20	379
Total Intangible Assets	<u>\$ 16,789</u>	<u>\$ 8,588</u>	<u>\$ 8,201</u>

	at December 31, 2015		
	Cost	Accumulated Amortization	Net
Trademarks	\$ 3,411	\$ 0	\$ 3,411
Patents and Technology	4,482	4,217	265
Customer Relationships	3,971	3,716	255
Distributor Relationships	370	355	15
Total Intangible Assets	<u>\$ 12,234</u>	<u>\$ 8,288</u>	<u>\$ 3,946</u>

Amortization expense for intangible assets was as follows:

	Three-month periods ended		Six-month periods ended	
	June 26, 2016	June 28, 2015	June 26, 2016	June 28, 2015
Amortization Included In:				
Research and Development	\$ 52	\$ 33	\$ 103	\$ 65
Selling, General and Administrative	85	26	171	54
Total Amortization Expense	<u>\$ 137</u>	<u>\$ 59</u>	<u>\$ 274</u>	<u>\$ 119</u>

The change in the cost value of total intangible assets from December 31, 2015 to June 26, 2016 is a result of the acquisition of Accutronics and the effect of foreign currency translations.

7. REVOLVING CREDIT AGREEMENT

We have financing through a Revolving Credit, Guaranty and Security Agreement (the "Credit Agreement") and related security agreements with PNC Bank, National Association ("PNC Bank"), which provides a \$20,000 secured asset-based revolving credit facility that includes a \$1,000 letter of credit sub-facility (the "Credit Facility"). The Credit Agreement provides that the Credit Facility may be increased with PNC Bank's concurrence to an amount not to exceed \$35,000 prior to the last six months of the term and expires on May 24, 2017.

Our available borrowing limit under the Credit Facility is based on a borrowing base formula equal to a percentage of accounts receivable, inventory and eligible foreign in-transit inventory. Interest is payable quarterly and accrues on outstanding indebtedness under the Credit Agreement at either a LIBOR-based rate or an alternate base rate, as defined in the Credit Agreement. The applicable interest rate was 2.45% at June 26, 2016. We pay a quarterly fee on the Credit Facility's unused availability at 0.375% per annum.

As of June 26, 2016, we had approximately \$11,021 of borrowing capacity under our \$20,000 Credit Facility with PNC Bank, and we had borrowings of \$831 under the Credit Facility. At June 28, 2015, the Company had no borrowings or outstanding letters of credit under the Credit Facility.

8. SHAREHOLDERS' EQUITY

We recorded non-cash stock compensation expense in each period as follows:

	Three-month periods ended		Six-month periods ended	
	June 26, 2016	June 28, 2015	June 26, 2016	June 28, 2015
Stock Options	\$ 158	\$ 136	\$ 328	\$ 256
Restricted Stock Grants	11	24	22	48
Total	<u>\$ 169</u>	<u>\$ 160</u>	<u>\$ 350</u>	<u>\$ 304</u>

These are more fully discussed as follows:

a. Stock Options

We have stock options outstanding from various stock-based employee compensation plans for which we record compensation cost relating to share-based payment transactions in our financial statements. As of June 26, 2016, there was \$824 of total unrecognized compensation cost related to outstanding stock options, which is expected to be recognized over a weighted average period of 1.4 years.

The following table summarizes stock option activity for the six-month period ended June 26, 2016:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value
Outstanding at January 1, 2016	2,257,969	\$ 6.30		
Granted	348,500	4.71		
Exercised	(19,741)	3.82		
Forfeited or Expired	(46,069)	9.54		
Outstanding at June 26, 2016	<u>2,540,659</u>	6.04	3.72	\$ 1,171
Vested and Expected to Vest at June 26, 2016	<u>2,371,248</u>	6.14	3.52	\$ 1,063
Exercisable at June 26, 2016	<u>1,391,598</u>	\$ 4.89	2.39	\$ 724

The following assumptions were used to value stock options granted during the six months ended June 26, 2016:

Risk-Free Interest Rate	0.89%
Volatility Factor	48.08%
Dividends	0.00%
Weighted Average Expected Life (Years)	2.82

The weighted average grant date fair value of options granted during the six months ended June 26, 2016 was \$2.01.

FASB's guidance for share-based payments requires cash flows from excess tax benefits to be classified as a part of cash flows from financing activities. Excess tax benefits are realized tax benefits from tax deductions for exercised stock options in excess of the deferred tax asset attributable to stock compensation costs for such stock options. We did not record any excess tax benefits in the first six months of 2016 or 2015.

Cash received from stock option exercises under our stock-based compensation plans for the three-month periods ended June 26, 2016 and June 28, 2015 was \$61 and \$0, respectively. Cash received from stock option exercises for the six-month periods ended June 26, 2016 and June 28, 2015 was \$75 and \$8, respectively.

b. Restricted Stock Awards

In September 2014, 49,200 shares of restricted stock were awarded to certain of our employees. These units vest over three years and we estimated their weighted average grant date fair value to be \$3.24 per share. There is \$27 of unrecognized compensation cost related to these restricted shares at June 26, 2016.

9. INCOME TAXES

We use the asset and liability method in accounting for income taxes. Under this method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax basis of assets and liabilities and are measured using the enacted tax rates and laws that are expected to be in effect when the differences are expected to reverse.

For the three-month periods ended June 26, 2016 and June 28, 2015, we recorded \$33 and \$71, respectively, in income tax expense. For the six-month periods ended June 26, 2016 and June 28, 2015, we recorded \$121 and \$182, respectively, in income tax expense. These are detailed as follows:

	Three-month periods ended		Six-month periods ended	
	June 26, 2016	June 28, 2015	June 26, 2016	June 28, 2015
Current Income Tax Provision:				
Foreign	\$ (41)	\$ (8)	\$ (14)	\$ 43
Federal	13	22	17	22
State	(7)	2	8	7
Deferred Income Tax Provision	68	55	110	110
Total	<u>\$ 33</u>	<u>\$ 71</u>	<u>\$ 121</u>	<u>\$ 182</u>

The deferred income tax provision is primarily due to the recognition of deferred tax liabilities relating to goodwill and certain intangible assets that cannot be predicted to reverse for book purposes during our loss carryforward periods. The current income tax provision is primarily due to the income reported for our China operation and Accutronics (U.K.) and estimated U.S. federal alternative minimum taxes, while the remaining expense is primarily due to state taxes.

Our effective consolidated tax rates for the six-month periods ended June 26, 2016 and June 28, 2015 were:

	Six month periods ended	
	June 26, 2016	June 28, 2015
Income Before Income Taxes (a)	\$ 844	\$ 1,479
Income Tax Provision (b)	121	182
Effective Income Tax Rate (b/a)	14.3%	12.3%

The overall effective tax rate is the result of the combination of income and losses in each of our tax jurisdictions, which is particularly influenced by the fact that we have recorded a full reserve against our deferred tax assets pertaining to cumulative historical losses for our U.S. operations and certain foreign subsidiaries, as management does not believe, at this time, that it is more likely than not that we will realize the benefit of these losses.

As of December 31, 2015, we have foreign and domestic net operating loss (“NOL”) and credit carryforwards totaling approximately \$86,800 and \$1,600, respectively, available to reduce future taxable income. Included in our NOL carryforwards are foreign loss carryforwards of approximately \$12,400 that can be carried forward indefinitely. The domestic NOL carryforward of \$74,400 expires from 2019 through 2034. The domestic NOL carryforward includes approximately \$3,000 for which a benefit will be recorded in capital in excess of par value when realized.

Our unrecognized tax benefits related to uncertain tax positions at March 29, 2015 and June 28, 2015 in the amount of \$7,296 and \$518, respectively, relate to Federal and various state jurisdictions. We recorded the release of uncertain tax positions in 2015 relating to the conclusion of a federal tax examination, resulting in a \$21,400 increase in the amount of our reported domestic NOL carryforward.

The total unrecognized tax benefit balances at March 29, 2015 and June 28, 2015 were comprised of tax benefits that, if recognized, would result in a deferred tax asset and a corresponding increase in our valuation allowance. As a result, because the benefit would be offset by an increase in the valuation allowance, there would be no net effect on our effective tax rate or income tax provision. We recorded the release of this unrecognized tax benefit amount during 2015 upon the conclusion of a federal tax examination, resulting in a \$21,400 increase in the amount of our reported domestic NOL carryforward.

We are not required to accrue interest and penalties as the unrecognized tax benefits have been recorded as a decrease in our NOL. Interest and penalties would begin to accrue in the period in which the NOLs related to the uncertain tax positions are utilized. We do not expect our unrecognized tax benefits to change significantly over the next twelve months.

As a result of our operations, we file income tax returns in various jurisdictions including U.S. federal, U.S. state and foreign jurisdictions. We are routinely subject to examination by taxing authorities in these various jurisdictions. Our U.S. tax matters for the years 2001 through 2015 remain subject to examination by the Internal Revenue Service ("IRS") and various state and local tax jurisdictions due to our NOL carryforwards. Our U.S. tax matters for the years 2001 through 2015 remain subject to examination by various state and local tax jurisdictions due to our NOL carryforwards. Our foreign tax matters for the years 2009 through 2015 remain subject to examination by the respective foreign tax jurisdiction authorities.

10. EARNINGS PER SHARE

Basic earnings per share ("EPS") is computed by dividing earnings attributable to the Company's common shareholders by the weighted-average shares outstanding during the period. Diluted EPS includes the dilutive effect of securities, if any, and is calculated using the treasury stock method. For the three-month period ended June 26, 2016, 1,144,076 stock options and 32,800 restricted stock units were included in the calculation of Diluted EPS as such securities are dilutive. Inclusion of these securities resulted in 160,732 additional shares in the calculation of fully diluted earnings per share. For the comparable three-month period ended June 28, 2015, 358,034 stock options and 34,200 restricted stock units were included in the calculation of Diluted EPS resulting in 39,426 additional shares in the calculation of fully diluted earnings per share. For the six-month periods ended June 26, 2016 and June 28, 2015, 1,177,076 and 257,534 stock options and 32,800 and 34,200 restricted stock units, respectively, were included in the calculation of Diluted EPS as such securities are dilutive. Inclusion of these securities resulted in 255,479 and 31,903 additional shares, respectively, in the calculation of fully diluted earnings per share.

There were 996,583 and 1,904,922 outstanding stock options for the three-month periods ended June 26, 2016 and June 28, 2015, respectively, that were not included in EPS as the effect would be anti-dilutive. There were 963,583 and 2,005,422 outstanding stock options for the six-month periods ended June 26, 2016 and June 28, 2015, respectively, that were not included in EPS as the effect would be anti-dilutive.

11. COMMITMENTS, CONTINGENCIES AND SUBSEQUENT EVENT

a. Purchase Commitments

As of June 26, 2016, we have made commitments to purchase approximately \$662 of production machinery and equipment.

b. Product Warranties

We estimate future costs associated with expected product failure rates, material usage and service costs in the development of our warranty obligations. Warranty reserves are based on historical experience of warranty claims and generally will be estimated as a percentage of sales over the warranty period. In the event the actual results of these items differ from the estimates, an adjustment to the warranty obligation would be recorded. Changes in our product warranty liability during the first six months of 2016 and 2015 were as follows:

	Six month periods ended	
	June 26, 2016	June 28, 2015
Accrued Warranty Obligations – Beginning	\$ 192	\$ 376
Accruals for Warranties Issued	26	13
Settlements Made	(42)	(13)
Accrued Warranty Obligations – Ending	<u>\$ 176</u>	<u>\$ 376</u>

c. Contingencies and Legal Matters

We are subject to legal proceedings and claims that arise from time to time in the normal course of business. We believe that the final disposition of such matters, other than the matters described below, will not have a material adverse effect on our financial position, results of operations or cash flows.

Dreamliner Litigation

In July 2013, an unoccupied Boeing 787 Dreamliner aircraft operated by Ethiopian Airlines was damaged by a fire while parked at London Heathrow Airport. We participated in and provided technical assistance in support of an investigation of this incident conducted by U.K. and U.S. regulatory authorities as well as by the manufacturer of the aircraft, as we are one of many downstream suppliers to that manufacturer. A final report was issued by the Air Accidents Investigative Branch – UK Civil Aviation regulatory authority, with findings indicating that the fire was primarily caused by circumstances related to the plane's emergency locator transmitter ("ELT") manufactured and installed by another company.

A component of the ELT is a battery pack which incorporates Ultralife's industry-standard lithium manganese dioxide non-rechargeable D-cell. Ultralife has had this cell in production since 2001, with millions of units produced and this cell is widely-used for global defense and commercial applications. This battery product has gone through rigorous safety and qualification testing, including United Nations Transport of Dangerous Goods, Manual of Tests and Criteria, and is authorized for use in aerospace applications under Technical Standard Order C142.

On May 4, 2015, we were notified of a lawsuit in which we were named, along with other suppliers to the aircraft manufacturer, concerning that 2013 fire. The suit was filed by Ethiopian Airlines Enterprise in the Commercial Court, Queen's Bench Division of the High Court of Justice, London. The suit seeks as damages \$42,000 plus other unspecified amounts, including those for loss of use and diminution in value of the aircraft. We maintain liability and products liability insurance through reputable providers, and in accordance with our corporate practices, immediately advised and referred this matter to our insurers. We are working with those insurers and their counsel to respond to and actively defend against this action, which is ongoing.

At this time, we believe that there is not a reasonable possibility that this incident will result in a material financial exposure to the Company.

Arista Power Litigation

Since September 2011, we have been pursuing legal action against Arista Power, Inc. (“Arista”) and our former employee, David Modeen, for, among other things, alleged breach of certain agreements, duties and obligations, including misappropriation of our confidential information and trade secrets, tortious interference, and breach of contract. On January 12, 2016, Arista filed for liquidation under Chapter 7 of the bankruptcy laws of the United States, without accurately identifying our ongoing lawsuit against them. Although we have not withdrawn our lawsuit, nor has it been dismissed, the Company does not intend to submit a Proof of Claim in connection with Arista’s bankruptcy filing, or otherwise continue pursuing its claims against Arista.

12. BUSINESS SEGMENT INFORMATION

We report our results in two operating segments: Battery & Energy Products and Communications Systems. The Battery & Energy Products segment includes: lithium 9-volt, cylindrical and other non-rechargeable batteries, in addition to rechargeable batteries, uninterruptable power supplies, charging systems and accessories. The Communications Systems segment includes: RF amplifiers, power supplies, cable and connector assemblies, amplified speakers, equipment mounts, case equipment, man-portable systems, integrated communication systems for fixed or vehicle applications and communications and electronics systems design. We believe that reporting performance at the gross profit level is the best indicator of segment performance. As such, we report segment performance at the gross profit level and operating expenses as corporate charges.

The components of segment performance were as follows:

Three-Month Period Ended June 26, 2016:

	Battery & Energy Products	Communi- cations Systems	Corporate	Total
Revenues	\$ 15,759	\$ 4,612	\$ -	\$ 20,371
Segment Contribution	4,664	1,236	(5,401)	499
Interest, Financing and Miscellaneous Expense, Net			(24)	(24)
Tax Provision			(33)	(33)
Non-Controlling Interest			4	4
Net Income Attributable to Ultralife				\$ 446
Total Assets	\$ 44,475	\$ 33,489	\$ 5,334	\$ 83,298

Three-Month Period Ended June 28, 2015:

	Battery & Energy Products	Communi- cations Systems	Corporate	Total
Revenues	\$ 15,972	\$ 2,983	\$ -	\$ 18,955
Segment Contribution	4,542	1,317	(5,042)	817
Interest, Financing and Miscellaneous Expense, Net			28	28
Tax Provision			(71)	(71)
Non-Controlling Interest			14	14
Net Income Attributable to Ultralife				\$ 788
Total Assets	\$ 37,084	\$ 27,906	\$ 17,945	\$ 82,935

Six-Month Period Ended June 26, 2016:

	Battery & Energy Products	Communi- cations Systems	Corporate	Total
Revenues	\$ 32,199	\$ 9,005	\$ -	\$ 41,204
Segment Contribution	9,881	2,424	(11,324)	981
Interest, Financing and Miscellaneous Expense, Net			(137)	(137)
Tax Provision			(121)	(121)
Non-Controlling Interest			22	22
Net Income Attributable to Ultralife				\$ 745

Six-Month Period Ended June 28, 2015:

	Battery & Energy Products	Communi- cations Systems	Corporate	Total
Revenues	\$ 32,248	\$ 5,884	\$ -	\$ 38,132
Segment Contribution	9,326	2,540	(10,227)	1,639
Interest, Financing and Miscellaneous Expense, Net			(160)	(160)
Tax Provision			(182)	(182)
Non-Controlling Interest			24	24
Net Income Attributable to Ultralife				\$ 1,321

13. FAIR VALUE OF FINANCIAL INSTRUMENTS

FASB's guidance for the disclosure regarding fair value of financial instruments requires disclosure of an estimate of the fair value of certain financial instruments. The fair value of financial instruments pursuant to FASB's guidance for the disclosure regarding fair value of financial instruments approximated their carrying values at June 26, 2016 and December 31, 2015. The fair value of cash, trade accounts receivable, trade accounts payable and accrued liabilities approximates carrying value due to the short-term nature of these instruments. The fair value of debt approximates the carrying value due to short-term nature and the current ability to borrow under similar terms.

14. FIRE AT MANUFACTURING FACILITY

In June 2011, we experienced a fire that damaged certain inventory and machinery and equipment at our facility in China. The total amount of the loss pertaining to assets and the related expenses was approximately \$1,589. We have pursued a claim against our insurance policy, with the majority of our insurance claim related to the recovery of damaged inventory. We have received payments in June 2012 and April 2013 totaling approximately \$1,286 as a partial payment on our insurance claim, which resulted in no gain or loss being recognized. As of June 26, 2016 and December 31, 2015, we reflect a receivable from the insurance company relating to this claim of \$177, which is net of our deductible of approximately \$126, and represents additional proceeds expected to be received.

15. RECENT ACCOUNTING PRONOUNCEMENTS AND DEVELOPMENTS

In May 2014, the FASB issued Accounting Standards Update (ASU) 2014-09, "Revenue from Contracts with Customers (Topic 606)". This ASU amends the existing accounting standards for revenue recognition and is based on the principle that revenue should be recognized to depict the transfer of goods or services to a customer at an amount that reflects the consideration a company expects to receive in exchange for those goods or services. The new revenue standards are effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. The Company is currently evaluating the potential impacts of this new guidance as well as the available transition methods.

In March 2016, the FASB issued ASU 2016-09, "Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting". ASU 2016-09 simplifies several aspects of the accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows. ASU 2016-09 is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2016. The Company is currently evaluating the potential impacts of this new guidance.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. This report contains certain forward-looking statements and information that are based on the beliefs of management as well as assumptions made by and information currently available to management. The statements contained in this report relating to matters that are not historical facts are forward-looking statements that involve risks and uncertainties, including, but not limited to, our reliance on a certain key customer; potential costs because of the warranties we supply with our products and services; our ability to comply with changes to the regulations for the shipment of our products; our efforts to develop new commercial applications for our products; the unique risks associated with our China operations; possible future declines in demand for the products that use our batteries or communications systems; reduced U.S. and foreign military spending including the uncertainty associated with government budget approvals; possible impairments of our goodwill and other intangible assets; possible breaches in security and other disruptions; variability in our quarterly and annual results and the price of our common stock; safety risks, including the risk of fire; negative publicity of lithium-ion batteries; the risk that we are unable to protect our proprietary and intellectual property; our resources being overwhelmed by our growth prospects; our ability to retain top management and key personnel; potential disruptions in our supply of raw materials and components; our exposure to foreign currency fluctuations; our customers' demand falling short of volume expectations in our supply agreements; rules and procedures regarding contracting with the U.S. and foreign governments; exposure to possible violations of the U.S. Foreign Corrupt Practices Act, the U.K. Bribery Act or other anti-corruption laws; our ability to utilize our net operating loss carryforwards; our ability to comply with government regulations regarding the use of "conflict minerals"; possible audits of our contracts by the U.S. and foreign governments and their respective defense agencies; known and unknown environmental matters; technological innovations in the non-rechargeable and rechargeable battery industries; and other risks and uncertainties, certain of which are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may differ materially from those forward-looking statements described herein. When used in this report, the words "anticipate", "believe", "estimate" or "expect" or words of similar import are intended to identify forward-looking statements. For further discussion of certain of the matters described above and other risks and uncertainties, see Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015.

Undue reliance should not be placed on our forward-looking statements. Except as required by law, we disclaim any obligation to update any risk factors or to publicly announce the results of any revisions to any of the forward-looking statements contained in this Quarterly Report on Form 10-Q or our Annual Report on Form 10-K for the year ended December 31, 2015 to reflect new information or risks, future events or other developments.

The following discussion and analysis should be read in conjunction with the accompanying Consolidated Financial Statements and Notes thereto appearing elsewhere in this Form 10-Q and the Risk Factors and our Consolidated Financial Statements and Notes thereto contained in our Form 10-K for the year ended December 31, 2015.

The financial information in this Management's Discussion and Analysis of Financial Condition and Results of Operations is presented in thousands of dollars, except for share and per share amounts. All figures presented below represent results from continuing operations, unless otherwise specified.

General

We offer products and services ranging from power solutions to communications and electronics systems. Through our engineering and collaborative approach to problem solving, we serve government, defense and commercial customers across the globe. We design, manufacture, install and maintain power and communications systems including rechargeable and non-rechargeable batteries, charging systems, communications and electronics systems and accessories, and custom engineered systems. We continually evaluate ways to grow and broaden the scope of our products and services, including the design, development and sale of new products, expansion of our sales force to penetrate new markets and geographies, as well as seeking opportunities to expand through acquisitions. We sell our products worldwide through a variety of trade channels, including original equipment manufacturers (“OEMs”), industrial and defense supply distributors and directly to U.S. and international defense departments.

We report our results in two operating segments: Battery & Energy Products and Communications Systems. The Battery & Energy Products segment includes: lithium 9-volt, cylindrical and other non-rechargeable batteries, in addition to rechargeable batteries, uninterruptable power supplies, charging systems and accessories. The Communications Systems segment includes: RF amplifiers, power supplies, cable and connector assemblies, amplified speakers, equipment mounts, case equipment, man-portable systems, integrated communication systems for fixed or vehicle applications and communications and electronics systems design. We believe that reporting performance at the gross profit level is the best indicator of segment performance. As such, we report segment performance at the gross profit level and operating expenses as corporate charges. (See Note 12 in the Notes to Consolidated Financial Statements.)

Overview

Consolidated revenues of \$20,371 for the three-month period ended June 26, 2016, increased by \$1,416 or 7.5%, from \$18,955 during the three-month period ended June 28, 2015, reflecting the Company’s acquisition of Accutronics in January 2016 and higher revenues from our Communications Systems business driven by shipments of Vehicle Installed Power Enhanced Rifleman Appliqué (“VIPER”) systems.

Gross profit for the three-month period ended June 26, 2016 was \$5,900, or 29.0% of revenues, compared to \$5,859, or 30.9% of revenues, for the same quarter a year ago. The 190 basis point reduction in gross margin resulted from the sales mix of products for our Communications Systems business which offset an increase in gross margin for our Battery & Energy Products business.

Operating expenses increased to \$5,401 during the three-month period ended June 26, 2016, compared to \$5,042 during the three-month period ended June 28, 2015. The increase of \$359 or 7.1% was fully attributable to Accutronics which contributed \$740 of operating expenses in the second quarter. Excluding Accutronics, operating expenses decreased \$381 or 7.6% due primarily to strict control over discretionary spending while focusing on the development of new products and revenue growth.

Operating income for the three-month period ended June 26, 2016 was \$499 or 2.4% of revenues, compared to \$817 or 4.3% for the year-earlier period. The year-over-year decrease in operating income primarily reflects the impact of the 190 basis point decline in gross margin in the 2016 period.

Net income attributable to Ultralife was \$446 or \$0.03 per share, for the three-month period ended June 26, 2016, compared to \$788 or \$0.05 per share for the three-month period ended June 28, 2015.

Adjusted EBITDA, defined as net income (loss) attributable to Ultralife before net interest expense, provision (benefit) for income taxes, depreciation and amortization, stock-based compensation expenses, plus/minus expenses/income that we do not consider reflective of our ongoing operations, amounted to \$1,457 in the second quarter of 2016 compared to \$1,725 in the second quarter of 2015. See the section “Adjusted EBITDA” beginning on Page 25 for a reconciliation of Adjusted EBITDA to net income attributable to Ultralife.

Primarily as a result of our acquisition of Accutronics on January 13, 2016, together with the purchase of shares under the Company's share repurchase program, an increase in accounts receivable due to the timing of second quarter sales and an increase in inventory to fulfill backorders, we utilized \$11,273 of cash and cash equivalents for the six month period ended June 26, 2016. Accordingly, cash and cash equivalents decreased from \$14,393 at December 31, 2015 to \$3,120 at June 26, 2016.

Despite some economic uncertainties weighing on customer's buying decisions, we still have our sights set on delivering profitable growth for 2016. Our gross margins and liquidity give us the flexibility to continue to invest in new product development in support of our long-term global diversification strategy.

Results of Operations

Three-month periods ended June 26, 2016 and June 28, 2015

Revenues. Consolidated revenues for the three-month period ended June 26, 2016 amounted to \$20,371, an increase of \$1,416 or 7.5%, from the \$18,955 reported for the three-month period ended June 28, 2015.

Battery & Energy Products revenues decreased \$213 or 1.3%, to \$15,759 for the three-month period ended June 26, 2016 from \$15,972 for the three-month period ended June 28, 2015. Commercial revenues for the second quarter of 2016 increased 5.3% over the prior year period, reflecting Accutronics sales, which partially offset the year earlier sales demand for our 9-Volt batteries from large global smoke detector OEM's to comply with legislation and trends in certain European Union countries for products lasting ten years and large shipments of batteries to service the metering and toll pass industries in China. Sales to medical customers in the 2016 period increased by 4.7% over 2015 when excluding Accutronics and more than doubled when including Accutronics. Government and defense sales decreased 10.4% from the 2015 period due primarily to the shipment of a large order to a defense supplier in 2015 for use in multifunctional information distribution systems and lower shipments of primary batteries to the U.S. Department of Defense, which was partially offset by higher charger shipments to international customers.

Communications Systems revenues increased \$1,629 or 54.6%, from \$2,983 during the three-month period ended June 28, 2015 to \$4,612 for the three-month period ended June 26, 2016. This increase is attributable to shipments of VIPER systems which more than offset a decrease in core product sales due to closing and funding delays associated with some orders which are expected to ship in subsequent quarters.

Cost of Products Sold. Cost of products sold totaled \$14,471 for the quarter ended June 26, 2016, an increase of \$1,375, or 10.5%, from the \$13,096 reported for the same quarter a year ago. Consolidated cost of products sold as a percentage of total revenue increased to 71.0% for the three-month period ended June 26, 2016 from 69.1% for the three-month period ended June 28, 2015. Correspondingly, consolidated gross margin was 29.0% for the three-month period ended June 26, 2016, compared with 30.9% for the three-month period ended June 28, 2015, reflecting the mix of products sold associated with the Communications Systems business which offset an increase in gross margin for our Battery & Energy Products business.

In our Battery & Energy Products segment, the cost of products sold decreased \$335, to \$11,095 for the three-month period ended June 26, 2016 from \$11,430 during the three-month period ended June 28, 2015. Battery & Energy Products' gross profit for the second quarter of 2016 was \$4,664 or 29.6% of revenues, an increase of \$122 or 2.7%, from gross profit of \$4,542 or 28.4% of revenues for the second quarter of 2015. Battery & Energy Products' gross margin as a percentage of revenues increased for the three-month period ended June 26, 2016 by 120 basis points, reflecting favorable product mix including the higher margins recognized for Accutronics products.

In our Communications Systems segment, the cost of products sold increased by \$1,710 or 102.6% from \$1,666 during the three-month period ended June 28, 2015 to \$3,376 during the three-month period ended June 26, 2016 due to higher sales in 2016. Communications Systems' gross profit for the second quarter of 2016 was \$1,236 or 26.8% of revenues, a decrease of \$81 or 6.2%, from gross profit of \$1,317 or 44.2% of revenues, for the second quarter of 2015. The 1,740 basis points decrease in gross margin as a percentage of revenue during 2016 is driven by the mix of products sold.

Operating Expenses. Operating expenses for the three-month period ended June 26, 2016 totaled \$5,401, an increase of \$359 or 7.1% from the \$5,042 recorded during the three-month period ended June 28, 2015. The increase was fully attributable to the acquisition of Accutronics, which contributed operating expenses of \$740 in the second quarter, including \$92 of intangible asset amortization. Excluding Accutronics results, operating expenses decreased \$381 or 7.6% due primarily to strict control over discretionary spending while focusing on the development of new products and revenue growth.

Overall, operating expenses as a percentage of revenues were 26.5% for the quarter ended June 26, 2016 compared to 26.6% for the quarter ended June 28, 2015. Amortization expense associated with intangible assets related to our acquisitions was \$137, including \$92 for Accutronics, for the second quarter of 2016 (\$85 in selling, general and administrative expenses and \$52 in research and development costs), compared with \$59 for the second quarter of 2015 (\$26 in selling, general, and administrative expenses and \$33 in research and development costs). Research and development costs were \$1,425 for the three-month period ended June 26, 2016, an increase of \$91 or 6.8%, from \$1,334 for the three-months ended June 28, 2015. The increase is attributable to \$159 of research and development costs (including intangible asset amortization of \$28) incurred by Accutronics. Selling, general, and administrative expenses increased \$268 or 7.2% to \$3,976 during the second quarter of 2016 from \$3,708 during the second quarter of 2015. The increase is fully attributable to the inclusion of Accutronics results which contributed \$581 (including intangible asset amortization of \$64) of selling, general and administrative expenses for the second quarter, partially offset by continued actions in the core businesses to reduce discretionary expenses.

Other Income (Expense). Other income (expense) totaled (\$24) for the three-month period ended June 26, 2016 compared to \$28 for the three-month period ended June 28, 2015. Interest and financing expense was \$62 for the second quarter of 2016 compared to \$64 for the 2015 period. Miscellaneous income (expense) amounted to \$38 for the second quarter of 2016 compared with \$92 for the second quarter of 2015, primarily due to transactions impacted by foreign currency fluctuations between the U.S. dollar relative to Pounds Sterling and the Euro.

Income Taxes. We reflected a tax provision of \$33 for the second quarter of 2016 compared to \$71 for the second quarter of 2015, a decrease of \$38. The decrease results from the increased international mix of our sales and operations.

See Note 9 in the Notes to Consolidated Financial Statements in this Form 10-Q for additional information regarding our income taxes.

Net Income Attributable to Ultralife. Net income attributable to Ultralife and net income attributable to Ultralife common shareholders per diluted share was \$446 and \$0.03, respectively, for the three months ended June 26, 2016, compared to \$788 and \$0.05, respectively, for the three months ended June 28, 2015. Average common shares outstanding used to compute diluted earnings per share decreased from 16,597,000 in the second quarter of 2015 to 15,419,000 in the second quarter of 2016 due to the repurchase of shares under the Company's share repurchase program.

Six-month periods ended June 26, 2016 and June 28, 2015

Revenues. Consolidated revenues for the six-month period ended June 26, 2016 amounted to \$41,204, an increase of \$3,072 or 8.1%, from the \$38,132 reported for the six-month period ended June 28, 2015.

Battery & Energy Products revenues decreased \$49, or 0.2%, from \$32,248 for the six-month period ended June 28, 2015 to \$32,199 for the six-month period ended June 26, 2016. Commercial revenues of this business increased 11.9% over the 2015 six-month period and now comprise 58.6% of total segment sales versus 52.3% last year. The year-over-year increase resulted from the inclusion of Accutronics sales, which offset the year-earlier demand for our 9-Volt batteries from large global smoke detector OEM's to comply with legislation and trends in certain European Union countries for products lasting ten years and large shipments of batteries to service the metering and toll pass industries in China. Government and defense sales of this business decreased 13.4% from the 2015 six-month period and now comprise 41.4% of total segment sales versus 47.7% last year. The year-over-year decline was due to the shipment of a large charger order to an international prime defense supplier and a large battery shipment for use in multifunctional information distribution systems in 2015.

Communications Systems revenues increased \$3,121, or 53.0%, from \$5,884 during the six-month period ended June 28, 2015 to \$9,005 for the six-month period ended June 26, 2016, reflecting shipments of VIPER systems which more than offset a decrease in core product sales due to closing and funding delays associated with some orders which are expected to ship in subsequent quarters.

Cost of Products Sold. Cost of products sold totaled \$28,899 for the six-month period ended June 26, 2016, an increase of \$2,633 or 10.0%, from the \$26,266 reported for the same six-month period a year ago. Consolidated cost of products sold as a percentage of total revenue increased from 68.9% for the six-month period ended June 28, 2015 to 70.1% for the six-month period ended June 26, 2016. Correspondingly, consolidated gross margin was 29.9% for the six-month period ended June 26, 2016, compared with 31.1% for the six-month period ended June 28, 2015, due primarily to product mix impacting the Communications Systems segment and a one-time adjustment to increase the opening inventory of Accutronics to fair market value in accordance with purchase.

For our Battery & Energy Products segment, the cost of products sold decreased \$604 or 2.6%, from \$22,922 during the six-month period ended June 28, 2015 to \$22,318 during the six-month period ended June 26, 2016. Battery & Energy Products' gross profit for the 2016 six-month period was \$9,881 or 30.7% of revenues, an increase of \$555 or 6.0% from gross profit of \$9,326, or 28.9% of revenues, for the 2015 six-month period. As a result, Battery & Energy Products' gross margin as a percentage of revenues increased for the six-month period ended June 28, 2015 by 180 basis points, reflecting favorable product mix including the higher overall gross margins recognized for Accutronics products.

For our Communications Systems segment, the cost of products sold increased by \$3,237 or 96.8% from \$3,344 during the six-month period ended June 28, 2015 to \$6,581 during the six-month period ended June 26, 2016. Communications Systems' gross profit for the first six months of 2016 was \$2,424 or 26.9% of revenues, a decrease of \$116 or 4.6% from gross profit of \$2,540 or 43.2% of revenues, for the second quarter of 2015. The 1,630 basis points decrease in gross margin as a percentage of revenue during 2016 is due to unfavorable sales product mix.

Operating Expenses. Total operating expenses for the six-month period ended June 26, 2016 totaled \$11,324, an increase of \$1,097 or 10.7% from the \$10,227 recorded during the six-month period ended June 28, 2015. This increase was fully attributable to the acquisition of Accutronics on January 13, 2016, which contributed operating expenses of \$1,745 in 2016, including \$203 of one-time direct acquisition costs and \$184 of intangible asset amortization. Excluding Accutronics results, operating expenses decreased \$648 or 6.3% due primarily to strict control over discretionary spending.

Overall, operating expenses as a percentage of revenues were 27.5% for the six-month period ended June 26, 2016 compared to 26.8% for the comparable 2015 period. Amortization expense associated with intangible assets related to our acquisitions was \$274, including \$184 for Accutronics, for the first six months of 2016 (\$171 in selling, general and administrative expenses and \$103 in research and development costs), compared with \$119 for the first six months of 2015 (\$54 in selling, general, and administrative expenses and \$65 in research and development costs). Research and development costs were \$3,081 for the six-month period ended June 26, 2016, an increase of \$388, or 14.4%, from \$2,693 for the six-months ended June 28, 2015. The increase is comprised of \$343 of research and development costs (including intangible asset amortization of \$56) incurred by Accutronics and an increase of \$45 due to the higher level of new product development spending in the 2016 period in response to a heightened level of requests for proposals. Selling, general, and administrative expenses increased \$709 or 9.4%, from \$7,534 during the first six months of 2015 to \$8,243 during the first six months of 2016. The increase is fully attributable to the inclusion of Accutronics results and the one-time direct acquisition costs which contributed \$1,402 (including intangible asset amortization of \$127) of selling, general and administrative expenses for the 2016 period, partially offset by continued actions in the core businesses to reduce discretionary expenses.

Other Income (Expense). Other (expense) totaled \$(137) for the six-month period ended June 26, 2016 compared to \$(160) for the six-month period ended June 28, 2015. Interest and financing expense increased \$33 to \$163 for the 2016 period from \$130 for the comparable period in 2015, as a result of one-time costs of \$48 associated with the acquisition of Accutronics. Miscellaneous income (expense) amounted to \$26 for the first six months of 2016 compared with (\$30) for the first six months of 2015, primarily due to the Company's actions in 2016 to mitigate the impact of foreign currency fluctuation between the U. S. dollar relative to Pounds Sterling and the Euro.

Income Taxes. We reflected a tax provision of \$121 for the first two quarters of 2016 compared with a tax provision of \$182 for the first two quarters of 2015. The decrease of \$61 or 33.5% was due to the amounts and geographic mix of earnings as well as the tax benefit associated with the acquisition costs related to Accutronics. The effective consolidated tax rates for the six-month periods ended June 26, 2016 and June 28, 2015 were:

	Six-month periods ended	
	June 26, 2016	June 28, 2015
Income Before Income Taxes (a)	\$ 844	\$ 1,479
Income Tax Provision (b)	121	182
Effective Income Tax Rate (b/a)	14.3%	12.3%

See Note 9 in the Notes to Consolidated Financial Statements for additional information regarding our income taxes.

Net Income Attributable to Ultralife. Net income attributable to Ultralife and income attributable to Ultralife common shareholders per diluted share was \$745 and \$0.05, respectively, for the six months ended June 26, 2016, compared to \$1,321 and \$0.08, respectively, for the six months ended June 28, 2015. The 2016 period was impacted by the purchase accounting adjustments and non-recurring costs totaling \$343 related to the acquisition of Accutronics, equivalent to \$0.02 per share. Average common shares outstanding used to compute diluted earnings per share decreased from 16,977,000 in the 2015 period to 15,545,000 in the 2016 period, mainly due to the repurchase of shares under the Company's share repurchase plan.

Adjusted EBITDA from Continuing Operations

In evaluating our business, we consider and use Adjusted EBITDA, a non-GAAP financial measure, as a supplemental measure to review and assess our operating performance. We define Adjusted EBITDA as net income (loss) attributable to Ultralife before net interest expense, provision (benefit) for income taxes, depreciation and amortization, plus/minus expenses/income that we do not consider reflective of our ongoing continuing operations. We also use Adjusted EBITDA as a supplemental measure to review and assess our operating performance and to enhance comparability between periods. We also believe the use of Adjusted EBITDA facilitates investors' use of operating performance comparisons from period to period by backing out potential differences caused by variations in such items as capital structures (affecting relative interest expense and stock-based compensation expense), the book amortization of intangible assets (affecting relative amortization expense), the age and book value of facilities and equipment (affecting relative depreciation expense) and other significant non-operating expenses or income. We also present Adjusted EBITDA from operations because we believe it is frequently used by securities analysts, investors and other interested parties as a measure of financial performance. We reconcile Adjusted EBITDA to net income (loss) attributable to Ultralife, the most comparable financial measure under U.S. generally accepted accounting principles ("U.S. GAAP").

We use Adjusted EBITDA in our decision-making processes relating to the operation of our business together with U.S. GAAP financial measures such as income (loss) from operations. We believe that Adjusted EBITDA permits a comparative assessment of our operating performance, relative to our performance based on our U.S. GAAP results, while isolating the effects of depreciation and amortization, which may vary from period to period without any correlation to underlying operating performance, and of non-cash stock-based compensation, which is a non-cash expense that varies widely among companies. We believe that by limiting Adjusted EBITDA, we assist investors in gaining a better understanding of our business on a going forward basis. We provide information relating to our Adjusted EBITDA so that securities analysts, investors and other interested parties have the same data that we employ in assessing our overall operations. We believe that trends in our Adjusted EBITDA are a valuable indicator of our operating performance on a consolidated basis and of our ability to produce operating cash flows to fund working capital needs, to service debt obligations and to fund capital expenditures.

The term Adjusted EBITDA is not defined under U.S. GAAP, and is not a measure of operating income, operating performance or liquidity presented in accordance with U.S. GAAP. Our Adjusted EBITDA has limitations as an analytical tool, and when assessing our operating performance, Adjusted EBITDA should not be considered in isolation or as a substitute for net income (loss) attributable to Ultralife or other consolidated statement of operations data prepared in accordance with U.S. GAAP. Some of these limitations include, but are not limited to, the following:

- Adjusted EBITDA does not reflect (1) our cash expenditures or future requirements for capital expenditures or contractual commitments; (2) changes in, or cash requirements for, our working capital needs; (3) the interest expense, or the cash requirements necessary to service interest or principal payments, on our debt; (4) income taxes or the cash requirements for any tax payments; and (5) all of the costs associated with operating our business;

- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized often will have to be replaced in the future, and Adjusted EBITDA from continuing operations does not reflect any cash requirements for such replacements;
- while stock-based compensation is a component of cost of products sold and operating expenses, the impact on our consolidated financial statements compared to other companies can vary significantly due to such factors as assumed life of the stock-based awards and assumed volatility of our common stock; and
- other companies may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

We compensate for these limitations by relying primarily on our U.S. GAAP results and using Adjusted EBITDA only supplementally. Adjusted EBITDA is calculated as follows for the periods presented:

	Three-month periods ended		Six-month periods ended	
	June 26, 2016	June 28, 2015	June 26, 2016	June 28, 2015
Net Income Attributable to Ultralife	\$ 446	\$ 788	\$ 745	\$ 1,321
Add:				
Interest and Financing Expense, Net	61	65	163	132
Income Tax Provision	33	71	121	182
Depreciation Expense	576	582	1,165	1,178
Amortization of Intangible Assets & Financing Fees	155	59	311	119
Stock-Based Compensation Expense	169	160	350	304
Non-Cash Purchase Accounting adjustments	5	-	96	-
Other	12	-	12	36
Adjusted EBITDA	<u>\$ 1,457</u>	<u>\$ 1,725</u>	<u>\$ 2,963</u>	<u>\$ 3,272</u>

Liquidity and Capital Resources

As of June 26, 2016, cash and cash equivalents totaled \$3,120, a decrease of \$11,273 from the beginning of the year primarily attributable to the Company's acquisition of Accutronics. During the six-month period ended June 28, 2016, we utilized \$802 of cash from our operating activities as compared to cash generated totaling \$4,745 during the six-month period ended June 28, 2015, a decrease of \$5,547. Cash utilized by operations in 2016 consisted of cash provided from net income attributable to Ultralife of \$723 and non-cash expenses (depreciation, amortization and stock-based compensation) totaling \$1,826, offset by a \$1,053 increase in accounts receivables due primarily to the timing of sales during the second quarter of 2016, and an increase in inventory of \$762 due primarily to service backlog including VIPER systems, and a net decrease in accounts payable and other working capital items of \$1,536 due in large part to payment of the inventory procured associated with servicing backlog. Cash generated from operations in 2015 included our net income of \$1,297 plus non-cash expenses (depreciation, amortization and stock-based compensation) totaling \$1,655, and cash provided by a \$2,331 decrease in inventories, offset partially by a decrease in accounts payable and other liabilities of \$863.

We used \$10,745 in cash for investing activities during the first six months of 2016. The Company acquired Accutronics in the 2016 period utilizing cash of \$11,161, which was partially offset by the cash acquired from Accutronics of \$1,304. Cash paid for capital expenditures totaled \$888 and \$884 in the first six months of 2016 and 2015, respectively. Cash utilized to repurchase shares under the Company's share repurchase program during the 2016 six-month period was \$607.

As of June 26, 2016, we had made commitments to purchase approximately \$662 of production machinery and equipment, which we expect to fund through operating cash flows or debt borrowings.

On April 28, 2014, the Company's Board of Directors approved a share repurchase program which became effective on May 1, 2014, under which the Company was authorized to repurchase up to 1.8 million shares of its outstanding common stock over a period not to exceed twelve months. The Share Repurchase Program was extended through June 2, 2016, and the maximum number of shares authorized to be repurchased under the program was increased to 3.4 million shares.

During the three and six month period ended June 26, 2016, the Company repurchased 149,904 shares under this program for a total cost (excluding fees and commissions) of \$603. During the six month period ended June 28, 2015, the Company repurchased 1,476,855 shares under this program for a total cost (excluding fees and commissions) of \$5,805.

From the inception of the Share Repurchase Program on May 1, 2014 through its expiration on June 2, 2016, the Company repurchased 2,592,095 shares for an aggregate cost (excluding fees and commissions) of \$10,480.

Debt Commitments

We have financing through our Credit Facility with PNC Bank, which provides a \$20,000 secured asset-based revolving credit facility that includes a \$1,000 letter of credit sub-facility. As of June 26, 2016, we had approximately \$11,021 of borrowing capacity under our \$20,000 Credit Facility with PNC Bank, and we had borrowings of \$831 under the Credit Facility.

Our available borrowing limit under the Credit Facility is based on a borrowing base formula equal to a percentage of accounts receivable, inventory and eligible foreign in-transit inventory. Interest is payable quarterly and accrues on outstanding indebtedness under the Credit Agreement at either a LIBOR-based rate or an alternate base rate, as defined in the Credit Agreement. The applicable interest rate was 2.45% at June 26, 2016. We pay a quarterly fee on the Credit Facility's unused availability at 0.375% per annum.

The Company currently believes that the cash flow generated from operations and when necessary, available borrowing from our Credit Facility, will be sufficient to meet its current and long-term funding requirements for the foreseeable future.

Critical Accounting Policies

Management exercises judgment in making important decisions pertaining to choosing and applying accounting policies and methodologies in many areas. Not only are these decisions necessary to comply with U.S. GAAP, but they also reflect management's view of the most appropriate manner in which to record and report our overall financial performance. All accounting policies are important, and all policies described in Note 1 ("Summary of Operations and Significant Accounting Policies") to our Consolidated Financial Statements in our 2015 Annual Report on Form 10-K should be reviewed for a greater understanding of how our financial performance is recorded and reported.

During the first six months of 2016, there were no significant changes in the manner in which our significant accounting policies were applied or in which related assumptions and estimates were developed.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation Of Disclosure Controls And Procedures

Our President and Chief Executive Officer (Principal Executive Officer) and our Chief Financial Officer and Treasurer (Principal Financial Officer) have evaluated our disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(e)) as of the end of the period covered by this quarterly report. Based on this evaluation, our President and Chief Executive Officer and Chief Financial Officer and Treasurer concluded that our disclosure controls and procedures were effective as of such date.

Changes In Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Securities Exchange Act Rule 13a-15(f)) that occurred during the fiscal quarter covered by this quarterly report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Dreamliner Litigation

In July 2013, an unoccupied Boeing 787 Dreamliner aircraft operated by Ethiopian Airlines was damaged by a fire while parked at London Heathrow Airport. We participated in and provided technical assistance in support of an investigation of this incident conducted by U.K. and U.S. regulatory authorities as well as by the manufacturer of the aircraft, as we are one of many downstream suppliers to that manufacturer. A final report was issued by the Air Accidents Investigative Branch - - UK Civil Aviation regulatory authority, with findings indicating that the fire was primarily caused by circumstances related to the plane's emergency locator transmitter ("ELT") manufactured and installed by another company.

A component of the ELT is a battery pack which incorporates Ultralife's industry-standard lithium manganese dioxide non-rechargeable D-cell. Ultralife has had this cell in production since 2001, with millions of units produced and this cell is widely-used for global defense and commercial applications. This battery product has gone through rigorous safety and qualification testing, including United Nations Transport of Dangerous Goods, Manual of Tests and Criteria, and is authorized for use in aerospace applications under Technical Standard Order C142.

On May 4, 2015, we were notified of a lawsuit in which we were named, along with other suppliers to the aircraft manufacturer, concerning that 2013 fire. The suit was filed by Ethiopian Airlines Enterprise in the Commercial Court, Queen's Bench Division of the High Court of Justice, London. The suit seeks as damages \$42,000 plus other unspecified amounts, including those for loss of use and diminution in value of the aircraft. We maintain liability and products liability insurance through reputable providers, and in accordance with our corporate practices, immediately advised and referred this matter to our insurers. We are working with those insurers and their counsel to respond to and actively defend against this action, which is ongoing.

At this time, we believe that there is not a reasonable possibility that this incident will result in a material financial exposure to the Company.

Since September 2011, we have been pursuing legal action against Arista Power, Inc. (“Arista”) and our former employee, David Modeen, for, among other things, alleged breach of certain agreements, duties and obligations, including misappropriation of our confidential information and trade secrets, tortious interference, and breach of contract. On January 12, 2016, Arista filed for liquidation under Chapter 7 of the bankruptcy laws of the United States, without accurately identifying our ongoing lawsuit against them. Although we have not withdrawn our lawsuit, nor has it been dismissed, the Company does not intend to submit a Proof of Claim in connection with Arista’s bankruptcy filing, or otherwise continue pursuing its claims against Arista.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

2(c) Purchases of Equity Securities by the Issuer and Affiliated Purchasers

The following table sets forth information regarding second quarter 2016 purchases of common stock under the Company’s stock repurchase program. Under the repurchase program, the Board of Directors authorized the repurchase of up to 1.8 million shares of the Company’s Common Stock through April 30, 2015. The Board of Directors extended the program through June 2, 2016 and expanded the maximum number of shares authorized to be repurchased from 1.8 million shares to 3.4 million shares. The Share Repurchase Program expired on June 2, 2016 and did not obligate the Company to repurchase any specific number of shares.

From the inception of the Share Repurchase Program on May 1, 2014 through its expiration on June 2, 2016, the Company repurchased 2,592,095 shares for an aggregate cost (excluding fees and commissions) of \$10,480.

	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid Per Share⁽¹⁾</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Program</u>	<u>Maximum Number of Shares That May Yet Be Purchased Under the Program</u>
March 28 – April 24	-	-	-	957,809
April 25 – May 22	139,150	\$ 4.01	139,150	818,659
May 23 – June 2	10,754	\$ 4.14	10,754	-
Total	<u>149,904</u>	<u>\$ 4.02</u>	<u>149,904</u>	<u>-</u>

⁽¹⁾Average Price Paid Per Share excludes fees and commissions related to such repurchases. Including these costs, the average price paid per share for all purchases under the Share Repurchase Program for the period March 28, 2016 through June 2, 2016 is \$4.05.

I, Michael D. Popielec, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Ultralife Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Michael D. Popielec
President and Chief Executive Officer

I, Philip A. Fain, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Ultralife Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
