Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 or Rule 12b-2 of the Securities Exchange Act of 1934. Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 8.01 Other Events

In a press release dated December 8, 2017, Ultralife Corporation (NASDAQ: ULBI) announced that it has been awarded a contract valued at approximately \$3.9 million to supply its Vehicle Amplifier-Adaptor (“VAA”) to Thales Defense & Security, Inc., a global leader in the development, manufacture, and support of combat-proven, software-defined radio equipment, for the U.S. Army’s Security Force Assistance Brigades (SFABs), and other opportunities. SFABs are new brigades formed to advise and assist our partner nations in developing their local security force capability from the tactical to ministerial level. Initial shipments are expected to commence before the end of 2017 and continue during the first half of 2018.

Ultralife Corporation Awarded \$3.9 Million Communications Systems Contract

NEWARK, N.Y. December 8, 2017 -- Ultralife Corporation (NASDAQ: ULBI) has been awarded a contract valued at approximately \$3.9 million to supply its Vehicle Amplifier-Adaptor ("VAA") to Thales Defense & Security, Inc., a global leader in the development, manufacture, and support of combat-proven, software-defined radio equipment, for the U.S. Army's Security Force Assistance Brigades (SFABs), and other opportunities. SFABs are new brigades formed to advise and assist our partner nations in developing their local security force capability from the tactical to ministerial level. Initial shipments are expected to commence before the end of 2017 and continue during the first half of 2018.

"This contract is a result of our ongoing new product development strategy of investing in technically advanced, integrated communication systems devices, as well as collaborative relationships with strategic partners. Leveraging the fielding and operational success of our Vehicle Installed Power Enhanced Rifleman Appliqué ("VIPER") platform, which provides the soldier with an enhanced range of digital voice and data communications and operational flexibility, the U.S. Army has selected our latest radio specific VAA as a critical component for the SFAB program," said Michael D. Popielec, Ultralife's President and Chief Executive Officer. "We look forward to continuing to add other new products and building blocks to our proven platforms to address the increasingly complex, secure integrated communications requirements for soldier modernization."

About Ultralife Corporation
