Ultralife Corporation Receives \$2 Million in Orders from U.S. Defense Dept.

NEWARK, N.Y., Mar 31, 2010 (BUSINESS WIRE) --Ultralife Corporation (NASDAQ: ULBI) has received orders valued at approximately \$2 million from the U.S. Defense Department for its McDowell Research brand MRC-93 Ultimate Battery Eliminators for use by both the U.S. Army and Marine Corps. Deliveries are expected to be completed in the 2nd quarter of 2010.

The MRC-93 (National Stock Number 6130-01-520-8178) is a universal self-contained battery eliminator that connects directly to a radio transceiver replacing the battery box. It can connect to a wide variety of transceivers such as the popular AN/PRC-117F and AN/PRC-138 multiband manpack radios, among others. The MRC-93 operates worldwide, providing regulated DC power output from an external AC or DC power source, allowing for safe operation of DC powered equipment. This encompasses most AC generating systems on aircraft, ships and other power sources including solar, wind and diesel generators. The Eliminator also has the enhanced capability to use any available communications batteries as backup power should the unit lose AC or DC input power. These include Ultralife's UBI-2590 lithium ion rechargeable and BA-5390 lithium-manganese dioxide non-rechargeable batteries, among other standard batteries available in the field.

About Ultralife Corporation

Ultralife Corporation, which began as a battery company, serves its markets with products and services ranging from portable and standby power solutions to communications and electronics systems. Through its engineering and collaborative approach to problem solving, Ultralife serves government, defense and commercial customers across the globe.

Ultralife's family of brands includes: Ultralife Batteries, Stationary Power Services, RPS Power Systems, ABLE, McDowell Research, RedBlack Communications and AMTI. Ultralife's operations are in North America, Europe and Asia. For more information, visit <http://www.ultralifecorp.com>.

This press release may contain forward-looking statements based on current expectations that involve a number of risks and uncertainties. The potential risks and uncertainties that could cause actual results to differ materially include: worsening global economic conditions, increased competitive environment and pricing pressures, and the possibility of intangible asset impairment charges that may be taken should management decide to retire one or more of the brands of acquired companies. The Company cautions investors not to place undue reliance on forward-looking statements, which reflect the Company's analysis only as of today's date. The Company undertakes no obligation to publicly update forward-looking statements to reflect subsequent events or circumstances. Further information on these factors and other factors that could affect Ultralife's financial results is included in Ultralife's Securities and Exchange Commission (SEC) filings, including the latest Annual Report on Form 10-K.
